ABOUT ME

I was born on February 6th in Warsaw. I have been a fan of drawing and computer graphics since my childhood. In spite of my interest, I took an educational path towards science - a class with a mathematical and physical profile in high school (XXVII Tadeusz Czacki High School in Warsaw). In 2001 I started studying at the Polish-Japanese Academy of Information Technology in the field of Computer Science, choosing the specialization of 3D Animation. I am a graduate of AnimaTricks 2013/2014 course. Currently I work as an AnimaTricks teacher and as freelancer.

LANGUAGE PROFICIENCY

Polish
native language

English
communicative level (C1)
